

Fairy Facts

- Fairies come in all sizes from tiny fairies, to pixies and on to sprites.
- Fairies love to spend their time in nature and you will most often find them in quiet undisturbed woodland, hedges or undergrowth.
- The Fairies love to play music and dance. They are very talented musicians.
- Young children are most likely to see fairies.
- To find the secret doorway to their world you must visit this special place at night on a full moon and walk around it nine times.
- A sudden gust of wind in a quiet still area can signify their presence, also a sudden ripple on quiet water means the same.
- The fairies love sparkly objects. Leave glitter and small glass ornaments in your garden for them to play with.
- Fairies can live for many hundreds of years.
- Fairies have many talents/gifts – eg. Water, Light, Garden, Animal, Tailoring, Shoe Making, just to name a few.
- They love to play tricks on people and you will know you have been visited by the fairies if you often discover small objects are missing in your home.
- Fairies love the sound of bells and chimes, so hang a wind chime under a tree to attract them into your garden.
- Tradition says that every time a baby laughs a new fairy is born.
- Fairies favourite foods are sweet and natural such as cakes, honey, fruit, and cheese.
- To find and keep a four leaf clover will protect you from fairy spells.
- The best time to see a fairy is either, dusk, midnight or dawn.
- Fairies are very particular and like to keep their surroundings neat and tidy and in order.
